Quest, Inc. Receives \$100K Grant From Link Logistics for Residential Transportation Support

Orlando, Florida (8/19/2025) – Quest, Inc., a nonprofit providing services that allow children and adults with developmental disabilities to experience a full life in the Orlando and Tampa Bay regions, announced today the receipt of a \$100,000 grant to assist with the transportation needs of those served by the organization. The grant was received through the Link Logistics Community Grants Program, which aids nonprofits through infrastructure grants that focus on optimizing and expanding operations and functionality.

"Reliable transportation is part of the backbone of service delivery for our residential clients," said John R. Gill, President and CEO of Quest, Inc. "It's one of those ingredients of quality service that is often overlooked and underfunded. We greatly appreciate Link Logistics continued support of Quest. Their gift allows us to provide opportunities to our residents that allow them to experience the fullest life possible."

The \$100,000 donation is being used to purchase an eight-passenger wheelchair accessible van to transport group home residents daily to Quest's Training Center in Apopka, as well as to community outings throughout the week.

"Quest is doing vital work to ensure individuals with developmental disabilities have essential services and the support they need for accessibility within their communities," said Luke J. Petherbridge, chief executive officer, Link Logistics. "We are honored to support their mission for a second consecutive year through our Community Grants Program, and proud that this contribution will help deepen their impact."

Link Logistics is a leading operator of last-mile logistics real estate. With a dedication to supporting the communities where it operates, Link Logistics' Community Grants Program provides infrastructure grants supporting hunger, education and hyperlocal needs. Since launching the program in 2022, the Company has donated \$8 million to more than 75 projects.

For over 60 years, Quest, Inc has helped children and adults with developmental disabilities experience a full life. Quest offers a range of services in the Orlando and Tampa Bay regions proven to increase capabilities and quality of life — from children's therapy, education and life-skills training to employment opportunities, residential options and recreational activities.
